Testimonials

"My practice was established in Franklin for 17 years, but there was interest from patients and physicians to bring my services to Cranberry Township. I found the demographics were promising and working with the township was a smooth process. The move has been an asset in the growth and stability of my practice."

- *Edward St. Clair, PT, DPT, West Park Rehab Physical Therapy*

"In the nearby counties, I could not have picked a better place for our pre-owned car dealership, than right in the middle of Cranberry. Cranberry is located between several towns and counties that attracts business. When thinking of business growth, I am thankful to be in Cranberry, the central commercial hub of the area."

- *Scott Snow, 4 Your Car Connection*

"Owning a business in Cranberry is like becoming part of a family. Seneca Lanes is growing each year with the increase of development surrounding us. This is a strong community for a variety of businesses and residents, and it was a great place to raise our children."

- *Stephanie Felmlee, Seneca Lanes*
